1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Yoon S. Ham (Reg. No. 45307) on 11/18/2010.

The application has been amended as follows:

In The Claim:

1. (**Currently Amended**) A vector animation interactive service method for implementing an interactive function of a vector animation by interlocking a plug-in technology used in a browser executed in a mobile communication terminal with a vector animation technology, the vector animation interactive service method comprising ~~the~~ steps of:

a) requesting a supply of a Wireless Application Protocol (WAP) page through a wireless Internet;

b) downloading a Wireless Markup Language (WML) script constituting the WAP page;

c) transferring the WML script to an embedded plug-in, and processing and converting a portion, which includes information for an image and a dynamic image or execution information for a game, in the WML script into a variable value in the embedded plug-in, the embedded plug-in being a program arranged to generate a new window in the WAP page without change of a screen and to enable the image, the dynamic or the game to be displayed in the WAP page in an embedded manner;

d) transferring the variable value to a vector graphic engine; and

e) displaying or executing the image, the dynamic image or the game through the vector graphic engine.

10. **(Currently Amended)** A mobile communication terminal for providing a vector animation interactive service, the mobile communication terminal comprising:

a Wireless Application Protocol (WAP) browser configured to couple to a wireless Internet via a mobile communication network and retrieve and receive information;

an embedded plug-in coupled to the WAP browser and configured to generate a new window in the WAP page without change of a screen and to enable an image, a dynamic image or a game to be displayed in the WAP browser in an embedded manner; and

a vector graphic engine coupled to the WAP browser;

wherein the mobile communication terminal is configured to download and analyze a Wireless Markup Language (WML) script constituting a WAP page of the wireless Internet, to process and convert a portion, which indicates information for ~~an~~ the image and ~~a~~ the dynamic image ~~and~~ or execution information for a game, in the WML script into a variable value through the embedded plug-in, to transfer the variable value and a control authority for the portion to the vector graphic engine, and to perform a display of the image and ~~a~~ the dynamic image or ~~an~~ the execution of the game on the WAP browser through the vector graphic engine.

(End of Amendment)

Allowable Subject Matter

2. Claims 1-14 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, none of the prior art of record teach or suggest a vector animation interactive service method for implementing an interactive function of a vector animation by interlocking a plug-in technology used in a browser executed in a mobile communication terminal with a vector animation technology, the vector animation interactive service method comprising steps of:

a) requesting a supply of a Wireless Application Protocol (WAP) page through a wireless Internet;

b) downloading a Wireless Markup Language (WML) script constituting the WAP page;

c) transferring the WML script to an embedded plug-in, and processing and converting a portion, which includes information for an image and a dynamic image or execution information for a game, in the WML script into a variable value in the embedded plug-in, the embedded plug-in being a program arranged to generate a new window in the WAP page without change of a screen and to enable the image, the dynamic or the game to be displayed in the WAP page in an embedded manner;

d) transferring the variable value to a vector graphic engine; and

e) displaying or executing the image, the dynamic image or the game through the vector graphic engine.

Therefore, the Examiner allows these limitations in combination with other features recited in the claim. Claims 2-9 are also allowed because the claims are dependent directly or indirectly on claim 1.

Regarding claim 10, none of the prior art of record teaches or suggests a mobile communication terminal for providing a vector animation interactive service, the mobile communication terminal comprising:

a Wireless Application Protocol (WAP) browser configured to couple to a wireless Internet via a mobile communication network and retrieve and receive information;

an embedded plug-in coupled to the WAP browser and configured to generate a new window in the WAP page without change of a screen and to enable an image, a dynamic image or a game to be displayed in the WAP browser in an embedded manner; and

a vector graphic engine coupled to the WAP browser;

Art Unit: 2617

wherein the mobile communication terminal is configured to download and analyze a Wireless Markup Language (WML) script constituting a WAP page of the wireless Internet, to process and convert a portion, which indicates information for the image and a the dynamic image or execution information for a game, in the WML script into a variable value through the embedded plug-in, to transfer the variable value and a control authority for the portion to the vector graphic engine, and to perform a display of the image and the dynamic image or the execution of the game on the WAP browser through the vector graphic engine.

Therefore, the Examiner allows these limitations in combination with other features recited in the claim. Claims 11-14 are also allowed because the claims are dependent directly or indirectly on claim 10.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submission should be clearly labeled "Comments on Statement of Reasons for Allowance."
